REPORT OF LIBRARY TRUSTEES

More books for the required reading in the schools have been added to the library during the present year.

Gifts of books from several sources have been received.

The floor has been oiled, a much needed benefit to the books, thereby keeping much dust from accumulating on the open shelves.

Our librarian received honorable mention in the State Library contest held at New London during the summer.

Respectfully submitted,

LESLIE B. PAIGE.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of South Hampton:

It gives me pleasure to submit my first annual report of the schools of South Hampton.

The school year begins July 1st and ends June 30. The year with which this report deals ended in June, 1927 and as I took up the work in March my report will be limited in some respects. I have found the schools in very good condition and have tried to continue the work so well begun by your former superintendent.

There were 51 different pupils enrolled in the schools last year which is 10 more than in 1925-1926. The attendance averaged 95.9 per cent. of the membership. The average for the state for this period was 94.57 per cent. Four completed the work of the 8th grade in June.

No one realizes better than I that a superintendent's first year in a district should be a time of getting acquainted, rather than a period of radical changes. With this in mind I have tried to make myself familiar with matters pertaining to schools and to follow as closely as possible for the present the plans already worked out.

The general aim of education is to train all children in those qualities of life and character which will make them good and efficient citizens in the community, state and nation. The objectives of education in a democracy have been summarized

by a committee of American teachers under seven headings:

1. Command of Fundamental Processes.
2. Health.
3. Worthy Home Membership.
4. Training for Vocation.
5. Training for Citizenship.
6. Worthy Use of Leisure.
7. Ethical Character.

The teachers have co-operated with the superintendent in an attempt in unifying the work of our schools in accomplishing these objectives. It is our purpose to make our educational activities a means of achieving these purposes. For each individual pupil the work of education may be considered as directed toward developing purpose and personality for the good of the pupil and the society in which he lives. Thus we may hope that our school work will result in happy serviceable lives.

The supervisory activities of the superintendent have been expended in classroom visits, follow up interviews, personal conferences and frequent school inspections. The two most important steps in improving schools are to improve the teaching and increase the actual attendance.

A statement by our School Nurse is printed with this report. Parents should take notice of the reports sent home, informing them of physical defects and have these defects corrected. No pupil can do the mental work of the school properly, if physically handicapped.

The chemical toilets installed by the Trustees and School Board last Summer have been very satisfactory and have done away with an objectionable condition. The remodelling of the primary room has greatly improved the school facilities.

For the teachers, the School Board and my-

self, we express the common desire that a larger number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing; what they are given to do with and how their work is directed, it will give them first hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and co-operation of the School Board, the Trustees of the Barnard Fund, the teachers and the community.

Respectfully submitted,

WILLIAM J. NELSON,
Superintendent.
